MRL INTRODUCTION

Modinagar Rolls Private Limited (MRL) established in 1995. Since its inception, MRL has become the quality leader in manufacturing of ROLLS.

MRL has added MRL Printing Rolls Pvt. Limited, MRL Coaters and Platers Private Limited and Hyderabad Industrial Rolls Private Limited to augment its business as a group of industries.

MRL has one of the biggest manufacturing facilities and a list of live clients not only from India, but overseas also.

MRL GROUP is a one-stop shop for manufacturing all kinds of rollers. We manufacture **Rubber Rolls, PU Rolls, Hard Chrome Rolls, Induction hardened, Tungsten carbide, Anilox, Design (Embossing and Engraving) Rollers** and **forged solid Alloy Rollers** for any and every specific application of industry.

MRL Group has given many new and alternative products to the Indian industry. MRL Group has sourced the best-known technologies in the world and is still innovating further with installing the latest machines.

ROLLER MAKING EXPERTS

MANUFACTURING FACILITIES & TECHNICAL CAPABILITIES

MRL started with a 4,000 sq. ft. shop floor area, Today MRL GROUP has expanded its shop floor area more than twenty times since its inception now MRL Group have more than 90,000 sq. ft. covered area over a total acquired area of more than 15 acre..

MRL Group is capable of manufacturing roller ranging

- Diameter **20mm to 2000 mm**
- Length **10mm to 10500 mm**

Installed with over 15 Grinders, 100 plus lathes, 4 dynamic balancing machine, 5 boring machines and 25 plus other required machines of different sizes all only for manufacturing rollers.

MRL GROUP currently boasts of many things, such as:

One of the **Biggest Grinding** machine

One of the **Biggest PU coating** setups in India. With world's latest **ribbon flow** machine.

One of the **Biggest Hard Chrome** plating plants in India.

Widest Range of coatings/roll covers at one place.

One of the **Biggest Dynamic Balancing** machines in India.

Biggest range of rollers manufacturing, from the **Smallest to the largest**.

Mechanical and chemical embossing, engraving of design rolls

One of the **Biggest Lists** of live clients.

ROLL COATING EXPERTS

Modinagar Rolls Private Limited

Modinagar Rolls Pvt Ltd (MRL) started in 1995, and has since then become one of the largest manufacturer of industrial rolls in the country.

MRL manufactures high quality and precision rolls for various industries, and has complete roll manufacturing setup under a single roof. It pioneers in making rolls for Paper Industry, and is a trusted name for supplying quality and timely products to the industry.

MRL Printing Rolls Private Limited

MRL Printing Rolls Private Limited (MPRL), an associate company of MRL GROUP, is the undisputed quality leader in the rolls for **Steels, Textile, printing, packaging,** & allied industries. We manufacture wide range of high quality rolls and provide a variety of repair & maintenance services.

MPRL is a well-established brand among the major leading OEM's of the industry. We manufacture rolls from prime quality pipes and using the latest technology of Coatings that ensures enhanced life of the rolls, even running at high speed, tension & pressure.

INDUSTRIAL ROLLEXPERTS

MRL Coaters & Platers Private Limited

Surface engineering is one of the key technologies being talked about all over the world. Hard chrome plating has unique properties of corrosion and wear resistance without compromising the characteristics of the substrate or the base metal. Another major benefit of chrome plating is low friction.

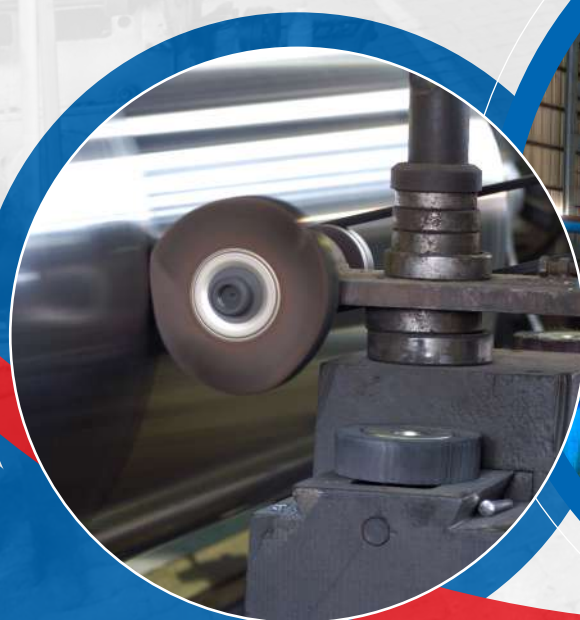

MRL Coaters & Platers Private Limited (MRLCP) provides high quality chrome plating services to the International standards. MRL continues to bring innovation to the industry to provide quality products and services to its growing number of customers across the nation.

MRLCP has established a reputation for providing incomparable quality, obsession to deliver on schedule and unbelievable value for money.

Hyderabad Industrial Rolls Private Limited

Under the aegis of Modinagar Rolls Private Limited (Group), Hyderabad Industrial rollers is been incorporated in 2021 with a vision of providing our best products within their limited distance for the South India customers. At HRL we manufacture high-quality custom rubber rolls along with a variety of repair and maintenance services to industries including dynamic balancing for all types of rotating bodies. At HRL we have a capacity of roll grinding of 1500 mm diameter and 8000 mm in length with handling capacity of 30 MT.

HARD CHROME ROLL EXPERTS

RESEARCH & DEVELOPMENT

Our in-house, state-of-the-art research and development lab assists in the development of high performing newproducts as well as repairing techniques of rolls taking into consideration the nature of the manufacturing environment in various industries. MRL Group insists that this department should know whether it should workto achieve the already set benchmarks in the industry or work to make its own set of rules.

MRL Group has complete laboratory and related equipment's which make them capable of manufacturing new compounds tailor made to your requirement.[n addition, R&D helps us to maintain the day-to-day quality of ourproducts and services.

TECHNICAL COLLABORATION WITH RUBBER, KOREA

MRL has a long standing technical collaboration with Kraiburg Rubber, South Korea. Together, they have introduced speciality rubber compounds for paper and other industries, which provide higher life and operational efficiency to the rollers.

TOTAL QUALITY CONTROL

We at MRL are committed to maintain the highest standards of quality. Our rigorous quality control system ensures that each and every process of our manufacturing conforms to stringent dimensional parameters. All products are thoroughly inspected for any defect before being dispatched to our customers. In the quest for total quality, MRL has set up a unique facility for servicing rolls under expert guidance of highly experienced professionals.
